Key observations

3 pages to review

Missing main headings

Example page: Booking 2

Headings help visitors and screen-reader users understand the offer. These observations do not prove a ranking problem.

Next step: Ask your editor to check the affected pages. Make the main offer clear and arrange headings in a useful reading order.

5 pages to review

Search descriptions to review

Example page: Booking 2

Clear wording can help people distinguish your offers. Search engines may choose different text.

Next step: Start with a main offer page. Check that its title and description match the offer, location and audience; ask your website editor to adjust wording where useful.

10 pages to review

Image descriptions to review

Example page: Booking 2

Useful image descriptions support visitors using screen readers. Image delivery and layout also deserve a check on a phone.

Next step: Ask your editor to describe informative images; decorative images may need empty descriptions. Ask your developer to check image sizes and layout where flagged.
